
WASSILI WOHLGEMUTH

SAMEDI 8 NOV - 11H

PROJET ARTISTIQUE :

« HINDEMITH DER MALER »

The idea is to create a short animated movie based on the second movement of Hindemith's Viola Concerto "Der Schwanendreher". The movie could be shown in the context of a Family -or children's concert, with the concerto being played live and parallel to the movie, but also standing alone as a short movie in digital form.

Similar to the way that a film director might try to find the right music for a scene, as a musician, I often thought about realizing the images that came to my mind while listening to certain pieces. Of course not all music tries to evoke pictures, but especially the music of 20th century composers like Prokofiev, Stravinsky or Hindemith, often carries this quality.

The piece that opened my eyes for Hindemith's music was his viola concerto "Der Schwanendreher". I was immediately captivated by its narrative quality, something that didn't match the sometimes believed misconception about his music being overly theoretical or dry.
